

Free Market — Descriptive Video Script & Storyboard

Video Title: “Free Market Complete Guide: How to Use the Platform”

Target Length: 8–12 minutes

Target Audience: New users (Business Owners, Riders, Artisans, Shoppers)

Style: Screen recording with voiceover + on-screen text highlights

Platform: YouTube, embedded on website, shared via WhatsApp

VIDEO STRUCTURE

INTRO (0:00 – 0:45)

[Scene: Animated logo reveal + platform screenshots montage]

VOICEOVER:

“Welcome to Free Market — the all-in-one business management and marketplace platform built for entrepreneurs, delivery riders, skilled artisans, and shoppers across Nigeria and beyond. Whether you’re running a store, offering delivery services, or hiring skilled workers, Free Market connects everyone in one seamless ecosystem. In this video, I’ll walk you through every feature so you can start using the platform like a pro.”

[On-screen text appears:]

-  Business Management
-  Online Marketplace
-  Rider Network
-  Artisan Directory

[Transition: Fade to Dashboard screenshot]

SECTION 1: GETTING STARTED (0:45 – 2:00)

Part A: Creating an Account (0:45 – 1:20)

[Scene: Screen recording of signup page]

VOICEOVER:

“First, head to freemarket.fly.dev. When you arrive, you’ll see the option to Sign In or Create Account. Free Market supports three types of accounts: Business Owner for selling products, Rider for delivery services, and Artisan for skilled work like welding, carpentry, or tailoring. Choose the one that fits you best.”

[On-screen text: “3 Account Types: Business | Rider | Artisan”]

[Scene: Show the signup form being filled]

VOICEOVER:

“Fill in your details, verify your email or phone number, and you’re in. If you’re just shopping, you can browse the marketplace and even place WhatsApp orders without creating an account — but for in-app orders and full features, you’ll need to sign up.”

[On-screen text: “Guest shoppers can browse + WhatsApp order”]

Part B: Dashboard Overview (1:20 – 2:00)

[Scene: Full Dashboard screenshot with cursor highlighting areas]

VOICEOVER:

“Once logged in, you land on your Dashboard. On the left is your navigation sidebar with everything you need. At the top, there’s a search bar, install button for the app, quick action icons, and your profile. The main area shows Quick Access cards for instant actions, Today’s Overview with your real-time stats, and a Weekly Profit chart so you can track performance at a glance.”

[Cursor highlights each section as mentioned]

[On-screen text overlays:]

- “Quick Access: New Sale | Products | Customers | Statistics”
- “Today’s Overview: Revenue | Sales | Products | Team”
- “Weekly Profit Chart with daily breakdown”

SECTION 2: MANAGING PRODUCTS (2:00 – 3:30)

[Scene: Navigate to Products page]

VOICEOVER:

“Let’s start with your inventory. Click ‘Products’ in the sidebar or the Products card on the Dashboard. Here you see your entire product catalog. At the top, summary cards show your total products, available stock, unavailable items, and food items count.”

[Scene: Show product list with items like Heavy-Duty Electrode Holder, Welding Face Shield, etc.]

VOICEOVER:

“Each product shows its image, name, category, price, stock status, and profit margin. The green toggle switch lets you instantly enable or disable a product. The edit and delete icons let you modify or remove items. You can also click ‘Ping Rider’ to assign a delivery partner to any product.”

[Cursor clicks toggle, edit, and Ping Rider buttons]

[On-screen text: “Toggle = Enable/Disable |  = Edit |  = Delete”]

Adding a Product (2:45 – 3:15)

[Scene: Click “+ Add Product”]

VOICEOVER:

“Adding a new product is simple. Click the green ‘Add Product’ button, fill in the name, select a category, set your selling price and cost price for margin tracking, add stock quantity, write a description, and upload product images. Hit save, and your product goes live on the marketplace instantly.”

[Scene: Show filter bar]

VOICEOVER:

“Use the search and filter bar to find products quickly by name, SKU, category, stock status, or availability.”

SECTION 3: SALES & RECEIPTS (3:30 – 4:45)

[Scene: Navigate to Sales page]

VOICEOVER:

“Now let’s look at Sales. This page is your financial command center. The four cards at the top show your total revenue, number of transactions, cash payments, and transfer or POS payments.”

[Scene: Show Recent Receipts cards]

VOICEOVER:

“Below that, Recent Receipts show your latest transactions as visual cards. Each receipt displays the receipt number, date, payment method, items sold, customer name, and total amount. You can view details or print any receipt with one click.”

[Scene: Show Sales Table]

VOICEOVER:

“The detailed sales table below lists every transaction with sortable columns for receipt number, items, customer, total, payment method, date, and actions. Notice how discounts appear in red when applied.”

Recording a Sale (4:00 – 4:30)

[Scene: Click “+ Record Sale”]

VOICEOVER:

“To record a new sale, click the green ‘Record Sale’ button. Select products from your inventory, set quantities, choose payment method — cash or transfer — add a customer or leave it as walk-in, apply any discount, and complete the sale. A receipt is generated automatically.”

[On-screen text: “Receipts auto-generate after every sale!”]

SECTION 4: ORDERS MANAGEMENT (4:45 – 6:00)

[Scene: Navigate to Orders page]

VOICEOVER:

“Orders is where you manage all customer purchases from the marketplace. At the top, you see the total order count and how many are pending your action. The status tabs let you filter by All, Pending, Accepted, Processing, Ready, and Completed orders.”

[Scene: Show order cards with different statuses]

VOICEOVER:

“Each order card shows the order ID, status badge, customer name, item count, date, and total amount. Pending orders are highlighted in yellow — these need your attention. Rejected orders show in red, and ready orders in green.”

[Scene: Click expand arrow on an order]

VOICEOVER:

“Click the arrow to expand any order and see full details. From here, you can accept the order, reject it with a reason, mark it as processing, ready for pickup, or completed after delivery. You can also assign a rider directly from the order details.”

[On-screen text: “Always check Pending orders first!”]

SECTION 5: CUSTOMERS (6:00 – 6:30)

[Scene: Navigate to Customers page]

VOICEOVER:

“The Customers section helps you build relationships. When you have customers, you’ll see their names, contact details, purchase history, and last order date. You can search by name, phone, or email, and sort by most recent or total purchases. If you’re just starting, the empty state prompts you to add your first customer. Click ‘Add Customer’ to build your database.”

SECTION 6: NOTIFICATIONS (6:30 – 7:00)

[Scene: Navigate to Notifications page]

VOICEOVER:

“Notifications keep you informed in real time. The bell icon in the top bar shows your unread count. On the notifications page, you’ll see all alerts organized into All, Unread, and Read tabs. New orders, cancellations, and system updates all appear here. Unread items have a red dot. Click ‘Mark all read’ to clear your badge. You can also search notifications by title or message content.”

[Scene: Show different notification types]

[On-screen text: “Red dot = Unread | Click to expand”]

SECTION 7: MARKETPLACE (7:00 – 8:00)

[Scene: Navigate to Marketplace]

VOICEOVER:

“The Marketplace is where the magic happens for shoppers. This is the public-facing storefront where customers browse products from all registered businesses. The left sidebar has powerful filters for location, product type, category, and price range.”

[Scene: Show category tabs]

VOICEOVER:

“At the top, category tabs let shoppers switch between All items, Products only, Food and Meals, Riders, and Artisans. The summary bar shows exactly how many products, riders, and artisans are available.”

[Scene: Show product cards]

VOICEOVER:

“Product cards display the price, image, name, short description, store name with verification badge, and action buttons to view details or add to cart. The ‘Most Popular Right Now’ carousel highlights trending items.”

SECTION 8: RIDERS (8:00 – 8:45)

[Scene: Navigate to Riders page]

VOICEOVER:

“Need delivery? The Riders section connects you with verified delivery partners. Search by name or area, filter by country and state, and select vehicle type — motorcycle, bicycle, tricycle, car, or van.”

[Scene: Show rider cards]

VOICEOVER:

“Each rider card shows their photo with an online status indicator, name, location, vehicle type, availability badge, and a view profile button. The ‘Browse by location’ section helps you find riders in specific states like Delta or Jigawa. If YOU are a rider, click ‘My Profile’ to set up your rider profile, choose your vehicle, set your areas, and toggle your availability to start receiving delivery requests.”

SECTION 9: ARTISANS (8:45 – 9:30)

[Scene: Navigate to Artisans page]

VOICEOVER:

“Looking for skilled workers? The Artisans directory has you covered. Search by name or skill, filter by location, and browse popular categories like Welding, Carpentry, Tailoring, Electrical, and Painting.”

[Scene: Show artisan cards]

VOICEOVER:

“Featured artisan cards display their profile photo, name, skill, location, star rating with review count, availability status, and a view profile button. If YOU are an artisan, click ‘Profile’ to list your skills, upload work samples, set your rates, and start getting hired.”

SECTION 10: BUSINESS REPORTS (9:30 – 10:15)

[Scene: Navigate to Reports page]

VOICEOVER:

“Business Reports give you the insights you need to grow. Toggle between Today, This Week, This Month, and This Year views. The four dark cards show your total revenue, total profit, transaction count, and average margin percentage.”

[Scene: Show profit trend chart]

VOICEOVER:

“The Profit Trend chart visualizes your revenue and profit over time with yellow and green lines. Below, summary figures reinforce your key metrics. You can export reports as CSV for spreadsheets, PDF for sharing, or print directly.”

[On-screen text: “Export: CSV | PDF | Print”]

SECTION 11: SETTINGS & PROFILE (10:15 – 10:45)

[Scene: Navigate to Business Settings]

VOICEOVER:

“In Business Settings, update your store details — company name, brand, address, phone, email, CAC number, and currency. Upload your business logo, add social media links for Facebook, Instagram, and X, and click Save Changes. Keeping this information current helps customers trust and contact your business.”

SECTION 12: FOOTER & SUPPORT (10:45 – 11:15)

[Scene: Scroll to footer]

VOICEOVER:

“At the bottom of every page, the footer provides quick links to Platform features, Business tools, and Get in Touch information. You’ll find the support email at Freemarket.fly@gmail.com and WhatsApp at 0912-956-5847. The footer also includes links to Privacy Policy, Terms of Service, and Support.”

OUTRO & CALL TO ACTION (11:15 – 12:00)

[Scene: Montage of all key screens + logo]

VOICEOVER:

“And that’s Free Market in a nutshell. From managing your inventory and processing orders to finding riders and hiring artisans, everything you need to run and grow your business is right here. PRODUCTION NOTES

Visual Style

- Clean screen recordings at 1080p
- Smooth cursor movements with click highlights
- Subtle zoom on important UI elements
- Consistent green/white color theme matching the app

Audio

- Clear, friendly voiceover
- Subtle background music (low volume)
- Sound effects for clicks and transitions

On-Screen Graphics

- Text overlays for key points
- Arrow annotations for UI elements
- Highlight boxes around buttons
- Progress bar showing video sections

Accessibility

- Add closed captions/subtitles
- High contrast text overlays
- Describe visual elements verbally

Recommended Tools

- **Screen Recording:** OBS Studio, Loom, or Camtasia
- **Editing:** DaVinci Resolve (free) or Adobe Premiere Pro
- **Annotations:** ScreenPal or built-in OS tools

- **Voiceover:** USB microphone (Blue Yeti or similar)
-

SHOT LIST CHECKLIST

- Intro animation with logo
 - Signup page walkthrough
 - Dashboard full overview (all sections)
 - Products page (list, add, edit, toggle, filters)
 - Sales page (cards, receipts, table, record sale)
 - Orders page (tabs, statuses, expand, actions)
 - Customers page (empty state, add customer)
 - Notifications page (tabs, types, mark read)
 - Marketplace (filters, categories, product cards)
 - Riders page (search, filters, cards, profile)
 - Artisans page (categories, cards, profile)
 - Reports page (time filters, cards, chart, export)
 - Settings page (form, logo upload, social links)
 - Footer with contact info
 - Outro with CTA and links
